Physiotherapist | DPT | MPhil

Founder & Lead Physiotherapist — Beyond Physio by Dr. Summaya Talha

We Heal. We Move. We Strengthen.

Dr. Summaya Talha is a dedicated physiotherapist committed to providing professional, compassionate and patient-centered physiotherapy care for **women and children**.

With a strong academic background, clinical experience and specialized professional training, she focuses on helping patients move beyond pain and limitations toward **better movement, greater strength and improved physical function**.

She is the **Founder & Lead Physiotherapist at Beyond Physio by Dr. Summaya Talha**, located in Saeedabad, Baldia Town, Karachi. The practice provides a comfortable, professional and patient-friendly environment where every patient receives an individualized assessment and rehabilitation plan.

Our Brand Philosophy

At **Beyond Physio**, we believe physiotherapy is not just about reducing pain.

It is about taking a patient through a complete journey:

Heal → Move → Strengthen

We Heal

We work to address pain, injury and physical limitations through appropriate assessment and personalized treatment.

We Move

Once pain and limitations improve, we focus on restoring mobility, flexibility, balance, coordination and functional movement.

We Strengthen

The ultimate goal is to build strength, confidence and physical capacity so patients can return to everyday activities and live more actively.

Beyond Pain. Beyond Limitations.

Our goal is to help patients go **beyond simply feeling better** — and move toward becoming stronger, more confident and more physically capable.

□ Academic Qualifications

- **MPhil in Physiotherapy** — Ziauddin University

- **Doctor of Physical Therapy (DPT)** — Dow University of Health Sciences

□ □ Professional Certifications & Specialized Training

Dr. Summaya Talha has completed specialized professional training in physiotherapy, rehabilitation and therapeutic techniques, including:

1. **Dry Cupping Therapy — UK**
2. **Kinesio Taping (KT) — UK**
3. **Dry Needling / Trigger Point Therapy — UK**
4. **Soft Tissue Management — UK**
5. **OMTC — UK**

These specialized certifications and professional trainings complement her academic qualifications and support her hands-on, individualized approach to physiotherapy and rehabilitation.

□ Areas of Clinical Interest

Dr. Summaya provides physiotherapy assessment and rehabilitation for a range of musculoskeletal and functional conditions, including:

- Back and neck pain
- Shoulder pain and dysfunction
- Knee and joint problems
- Muscle and soft-tissue conditions
- Postural problems
- Sports and activity-related injuries
- Mobility and functional limitations
- Women's physiotherapy needs
- Pediatric physiotherapy and rehabilitation
- Exercise-based rehabilitation
- Pain management
- Injury recovery and functional rehabilitation

□ Our Treatment Approach

At Beyond Physio, treatment is designed around the patient's individual needs and rehabilitation goals.

The journey may include:

- Comprehensive physiotherapy assessment
- Therapeutic exercises
- Manual therapy
- Soft tissue techniques

- Dry cupping therapy
- Dry needling
- Kinesio taping
- Mobility and flexibility exercises
- Strengthening exercises
- Corrective exercises
- Functional rehabilitation
- Patient education
- Individualized home exercise programs

We don't want patients to remain dependent on treatment. Our goal is to progressively help them **heal, move better and become stronger**.

□ Women's Physiotherapy

At **Beyond Physio**, we provide a comfortable and supportive environment for female patients.

Dr. Summaya aims to provide personalized physiotherapy care while respecting every patient's comfort, privacy and individual rehabilitation needs.

□ Pediatric Physiotherapy

Dr. Summaya also provides physiotherapy and rehabilitation support for children through appropriate assessment and individualized treatment planning.

The focus may include improving:

- Functional movement
- Strength
- Balance
- Coordination
- Mobility
- Physical confidence
- Participation in age-appropriate activities

□ About Beyond Physio

Beyond Physio by Dr. Summaya Talha was established with the vision of providing professional, personalized and compassionate physiotherapy care within the local community.

Our philosophy is simple:

We Heal. We Move. We Strengthen.

We believe that successful physiotherapy should not end when pain decreases.

A successful rehabilitation journey continues toward **better movement, greater strength, improved function and increased confidence.**

That is what makes us **Beyond Physio.**

□ Patient-Centered Care

Effective physiotherapy involves more than clinical techniques. Building **trust, communication and understanding** with every patient is an important part of the rehabilitation process.

Dr. Summaya takes time to understand each patient's concerns, lifestyle and goals and develops a practical, individualized approach to their rehabilitation.

□ Our Professional Philosophy

“Physiotherapy is not just about treating pain; it is about helping people heal, move better, become stronger and live better.”

At Beyond Physio, every patient's journey is different — but the destination is the same:

Better Health. Better Movement. Greater Strength.
